

THE MESSENGER

SOME RECENT PHOTOS

SPRING 2017

Welcome to our latest news...

Hi again, I hope you are having a good start to 2017. Here's some news about recent projects & plans for the next short while. We recently completed an audio recording in the Baltic Romani language for these speakers living in Belarus, Estonia, Latvia, Lithuania, Poland & northern Russia.

Over the Christmas period we were able to send 22 Saber players & Solar panels to

pastors & evangelists in Orissa, India. These were loaded with 7 different languages used in the tribal regions. Also 12 Saber players & flip charts were sent to pastors in Chad, Africa who reach out to the Gabri-Kimre speakers there in this very dry & remote region, about 500 km from the capital. At the end of March Kenny is attending a 3 week recordist training course

in Togo, Africa to help upgrade train some of our recordists from Nigeria, Sierra Leone, Cameroon & Togo. Other trainers & helpers are coming from Kenya, South Africa & Thailand. This will be wonderful experience for all concerned & Kenny is looking forward to meeting all his fellow recordists there. Please pray for this special time in Togo.

We continue to send our GRN materials around the world & we also have about 5 recording projects currently being translated in various languages. If you'd like to know more about these projects please let me know. Recently we were able to pay for some micro SD cards to be distributed in an Asian country. These were loaded with the new Jesus Film in their language. This means that many

Muslim families & others can watch The Jesus movie for the first time.

Although we travel a lot doing recordings, we also like to partner with people who live & serve in dangerous & remote regions. In this way we can give them the tools & means to tell the Gospel message in their own language. Partnership is good & we are thankful to all our prayer partners & supporters who provide for these projects.

God Bless you & thank you for everything you do for us.

Kenny McKee.
