

# The Messenger

Issue 2.

SUDAN. Recently we met up with 20 Sudanese Bishops in Salisbury who were attending a conference. We listened to their stories of the struggle they face with over-

seeing so many churches but having no resources to teach with. One said he had 350 churches under his care &

their Sunday Schools have no materials to present The Gospel to the children. Our materials are seen as one of the best methods available...**pastors say that to us continually. Their eyes lit up when they saw the beautiful colourful pictures in the flip charts & books. "We need these resources," said one Bishop who had used our materials before in the Congo & said these are most effective & had saw many saved as a result. We in faith gave each of them a hand wind tape player, a set of 9 flip charts, a set of 9 A5 Bible picture books and cassettes in 14 different languages. They couldn't believe it & thanked us so much.**

**"We all have a choice...To focus on the temporary, material things of this world or to focus on things which will last for eternity... God's focus for this world"**

**This is only a tiny drop in the ocean but it's a start.** We pray that thousands will hear through these materials. If you would like to help support getting more of our recordings & materials there please let **me know. They need the tools now...life expectancy is very low in Sudan.**

TAMIL CDs. This month we had our largest order yet for 1300 CDs & 900 Bible Picture books. An outreach is planned in Birmingham UK to these lovely people. Please

**pray for many to be won into God's Kingdom as a result.** Many thanks to our friends in the West Midlands. If you would like CDs or cassettes for reaching out to folk in this country, please give us a call.

BOTSWANA Another order this month went to 2 Irish missionaries working in Botswana. They wrote, **"Thanks for the parcels you sent us with a hand wind player, some cassettes & flip charts. I used them straight away where I teach 4 classes of 12 year olds and they were received at the perfect time and I was thrilled".**

Our materials are seen as one of the most effective methods available to present the Gospel message to both children and adults, especially in oral speaking **communities....pastors and missionaries say that to us continually.**

## KOSOVA.

We mentioned in the last edition about our proposed trip to Kosova to record in the Goran language. Well thanks to your prayers everything went really well. We met and recorded with Mukim, a new believer, who has the desire to reach his people with The Gospel message. There are around 50,000 speakers who are nominal Muslim & the majority live on the Albanina/Kosova border in 28 villages. It was a thrill to record for the first time in his language. We now have the new recordings ready for distribution on CD & cassette and we hope to go there in Sept/Oct.

If you would like to help support this project or know more about it please let me know. We also did other recordings while we were there & also visited many of the orphan & widows in this lovely country torn apart by the war in 1999. It **seems the world has forgotten but God hasn't.** There are over 10,000 widows with many struggling to exist. One family we were able to help get their house repaired was for a blind man & his wife who had lost everything & needed a house for their family. Working alongside 2 other Missions we have almost completed the refurbishment of the house. There was no water, electricity or sewers to the site & so they had to dig a long trench over 400m to bring in these utilities. If you would like to know more

about how you can help our work in Kosovo please contact us. **"Therefore, as we have opportunity, let us do good to all people" Gal.6v10.**

A missionary in Malaysia, home on furlough in the UK wrote, **"Once again thank you for all the materials you sent. I have told various ones in Malaysia that I have them, but they will have to wait until summer to see my treasure".**

We sent this missionary serving in India some materials, **"Thanks from KOLKATA. I am writing to thank you for your support to our work in this amazing city. Your materials have been a good tool to talk & share with children & adults. I have distributed to some friends who have ministries in the villages and they are so delighted."**

BURUNDI. Our friend Johnson has been using the materials we sent him 2 months ago. He e-mailed to say, **"I am writing to say the pastors of different denominations are thrilled and sooooo excited about the supply of materials that you have provided for them. I get requests from pastors in Rwanda, Congo & Burundi. We are planning to distribute to churches, schools, prisons, orphan centres. One pastor has trained 30 people how to use these materials.**

Our countries have suffered in many ways, the only way to overcome is to go back to a biblical foundation. Tomorrow I am taking materials to the border of Tanzania where I will give 100 bible students materials to distribute in their churches. I am working with a local pastor & taking Swahili tapes which are so **useful. Also I'm meeting a Rwandan pastor who wants more materials & a pastor in Congo who uses the French tapes. I am very busy & happy to share the Gospel of Jesus to my people of Africa. Thank you for working hard for my people"**

A Russian man who was travelling in the Moscow underground suddenly heard a **voice, "without God life makes no sense."** He became a Christian shortly after. PTL.

On an outreach to Guinea-Bissau, our team met an old fetish priest who was a self confessed wizard. After hearing the Gospel message, he gave his heart to the Lord. He was afraid however that God would punish him for all the evil things he had done. The team realized that the truths of the Gospel needed to sink deeply into his soul & spirit. So they gave him our teaching tapes in his language. Later **he said, " I am no longer a wizard. Now my life belongs to Jesus."**
